recharge your life!

Rental solutions for events

RENTAL

FOR A FUTURE THAT IS ALREADY HERE TODAY

The future will bring human-friendly cities, where technology, **environmental consciousness** and attention to **personal health** will merge into a **single reality**.

Pradella Sistemi has always strongly believed in this. It specializes in the research, production, development and commercialization of innovations for Smart Cities.

Pradella Sistemi, an innovative SME, **works to create technologies at the service of the community** such as interactive columns and benches with integrated charging points for electric vehicles, charging points for small electronic devices, intelligent lighting and AED defibrillators with high quality standards.

FOR A NEW MOBILITY

Pradella Sistemi's products, which are also powered by **renewable energy** such as photovoltaics and wind power, are able to support integration with any technology to be recharged. The recharging systems are **secure** and protected from external attacks because they are **free of wi-fi connection**.

They also have an integrated **remote control system** that guarantees their operation and **full functionality**, with the added possibility of recording data on air quality and station utilisation.

more than **1000** USB sockets over **3000** recharge points for electric mobility

600 active installations **200** defibrillators

5 landing and equity crowdfunding campaigns

RENTAL SERVICE OF CHARGING STATIONS

AND DAE COLUMNS FOR YOUR
CUSTOMERS

Festivals, concerts, sporting events and congresses, both indoors and outdoors: Pradella Sistemi's solutions are suitable for every context and location.

Having a cardioprotection system is essential to protect people's health, while offering participants the possibility of recharging their own mobiles and devices makes the difference.

Transport, installation, service and collection are also included. **For an integrated and complete service.**

MODULAR SOLUTIONS
WITH DIFFERENT SERVICES

PRADELLA SISTEMI FOR HIRE

PANKA 4S

- Smart and interactive bench with 4 USB ports and one fast charge wireless induction charging point.
- Possibility to select wood or aluminium seat (wood-coloured or customised version) and possibility of incorporating IoT sensors.

PILA 2.05 PLUS

Charging column for electronic devices

- 8 USB ports
 - 4 schuko sockets
- Possibility of inserting two charging cords for ebikes or electric scooters
Possibility to integrate Tecatech, patented defibrillator case

PILA CAR

Is a charging column with the possibility of installing the single-phase DAZE wallbox (up to 7.4 kW of maximum power) or the three-phase (up to 22.2 kW of maximum power). Particularly suitable for companies that need an internal charging station or for accommodation facilities, in this case Pila Car can be activated for a seasonal or annual rental (with possible redemption).
